The 1982 Warriors were thought not to be overly impressive, but many teams, especially Pittston Area, found out differently. The 9-2 record posted by the Warriors was a success in itself, but the 31-21 defeat of Pittston was the high point of the season. The Warriors boasted of three all-scholastic players: Jamie Kutzer, Mark Sickler, and Steve Sokach. Mark Sickler also became the second player in Wyoming Area history to be named to the all-state first team. The success of this year's team was, however, brought about by total effort on the part of the entire squad. Balance was the secret of the offense, which ground out score after score, and strength was the secret defensive weapon.
